## Reflecting on Indaba 2015

NLC hosted its 4th annual Indaba in November 2015 in Gauteng.

The 2015 Indaba was the first after the implementation of the amended Lotteries Act, and the re-launch of the National Lotteries Board as the National Lotteries Commission.

The following were adopted by delegates as 2015 NLC Indaba Resolutions:

**Improve** marketing and communication of the National Lotteries Commission, and the link between revenue and the funding of good causes

**Improve** monitoring of funded organisations - and measurement of NLC's impact

**Strengthen** partnerships with other stakeholders to improve regulation

**Improving** service delivery and turnaround times through enhancing technology (by allowing for online submission and tracking of applications)

**Extend** capacity building efforts for beneficiaries to improve resource use and the impact of programmes (e.g. management, financial and governance skills)

**Ensure** processes and procedures are fair, ethical, transparent and professional, and deliver on the NLC's espoused values

# Using the NLC Logo on your project publicity

As previously communicated, the rebranding of the National Lotteries Board as the National Lotteries Commission also included the change of the logos. For beneficiaries publicity, the NLDTF logo will no longer be used. A new NLC logo with the words 'LOTTO FUNDED' will now be used to show the impact of funding on all beneficiary publicity.

# Building a healthy nation: Early Childhood Development

In December 2014, we advertised an infrastructure targeted call for Early Childhood Development (ECD) infrastructure under the Charities Sector.

From this call, almost 5000 applications were received from NPOs/NGOs around the country. Launches for the ECD projects started in the Eastern Cape Province in November 2015, followed by the North West this January.

NLC Commissioner Thabang Mampane stressed the importance of these facilities in building solid foundations for our children, and how the funding toward state-of-the-art buildings that can accommodate a maximum of 120 children and/or ready to occupy containers that can accommodate a maximum 30 of children would become building blocks for to this end.

This ECD infrastructure programme will contribute towards access to quality early childhood education across the country.

The events were held in partnership with provincial departments of Social Development and were attended by different stakeholders including office of the Premier, local

municipalities NLC Beneficiaries and members of the community.

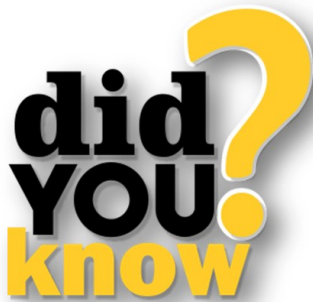

Symbolic cheques were also presented to awarded beneficiaries.

Launch dates for the remaining provinces will be announced soon!

A total of R 280 538 000 has been allocated to ECD projects nationwide. Below is a breakdown of the distribution:

Province	Number of Approved Container Projects	Number of Approved Building Projects
Eastern Cape	8	9
Free State	16	10
Gauteng	13	3
Limpopo	10	2
KwaZulu-Natal	9	2
Mpumalanga	11	5
Northern Cape	4	7
North West	9	12
Western Cape	6	3
<b>Total</b>	<b>86</b>	<b>53</b>

**Did you know** that there are different categories of lotteries? Some of them are in fact **illegal!**

The NLC was recently featured on eNCA’s Checkpoint when they looked into the illegal lottery, Fahfee.

We regulate lotteries to protect the public.

Type of lottery	How to keep it legal
<p><b>Private lotteries</b>            Example: The office sweepstake where all tickets are sold to staff and all proceeds split as prize money.</p>	<p>Do not advertise the lottery externally.            Do not sell tickets to anyone outside the membership group.            Do not employ anyone specially to organise the lottery.</p>
<p><b>Lotteries that form part of “exempt” entertainment</b>            Example: At a fund-raising dinner there is a draw for a stunning prize. At a school fete raffle tickets are sold for a range of prizes.</p>	<p>“Exempt” entertainment is generally of a charitable or fund-raising nature – not commercial.            Lottery proceeds must benefit a “deserving” group.            The lottery is part of a bigger activity.            The prizes are not in cash.</p>
<p><b>Society lotteries</b>            These are run by organisations that are registered to raise funds from the public. They are typically advertised in the media or promoted in public spaces.</p>	<p>Societies conducting these lotteries need to register with the NLC and meet certain conditions (see <b>Running a public fundraising lottery</b>).</p>
<p><b>Promotional competitions</b>            Many big companies promote the purchase of their products through lottery-type competitions. Customers must buy the product or service in order to enter the draw.</p>	<p>There must be no extra charge for entering the competition. The normal product price must include the “ticket” price.            Companies must comply with any regulations made by the Minister of Trade and Industry.</p>
