

Charities Sector Call for Applications 2021-22

Definitions of vulnerability

A detailed description of the vulnerable groups to be considered for funding

	Category	Included	Excluded
1	Children	Orphans and Vulnerable Children (OVCs) and Child-headed households. This refers to children who have lost their parents. This further include street and homeless children who have been left destitute, abandoned, abused and without any stable accommodation.	Children that have not been orphaned or vulnerable.
2	Youth	This refers to young people attending registered Drop-In Centre programmes; as well as young people who are conflicted with the law (or ex-offenders) attending registered diversion programmes. It also includes young people requiring assistance with substance abuse.	Young people embarking on stand-alone skills development / capacity building programmes.
3	Families	Families who require assistance and intervention through a structured programme with the assistance of a registered Social Worker	Families that have not approached a registered organisation to assist with an intervention.
4	Older persons	People of pensionable age in a residential facility or day-care programme / luncheon club; home-based care programme; or chronic illness facility / programme.	Older persons not of pensionable age and not participating in any of the programmes / projects for older persons.
5	People with disabilities	People with different disabilities in residential facilities, day-care programmes, stimulation programmes or work placement and support programmes; also inclusive of self-help centres or protective workshops.	Individual people living with disabilities but not part of an organisation.
6	Homeless	People who live on the street, are destitute, abused, abandoned and without any stable accommodation.	Individual homeless people not part of an organisation.

The following programmes will be considered:

Programmes that focus on: Drug and substance abuse; HIV and AIDS; chronic illness management; diversion programmes; drop-in centres, therapeutic and stimulation projects, psycho-social and counselling.

Integrated programmes comprising two or more elements of: care and psycho-social support, prevention, policy advocacy and capacity building.
