THE NLC'S ROLE IN SUPPORTING THE BROADER AMBITIONS OF THE SDGS AND THE NDP

In line with its mandate, vision and mission, the NLC's formulation of programme activities and targets is aligned to the political, social and economic realities of South Africa. In particular, the NLC's role and functions as outlined in the Amended Lotteries Act places an obligation on the organisation to support, both directly and indirectly, the electoral mandate of government. From a strategic perspective, the sight of government priorities provides a significant opportunity for the NLC within the disciplinary context of social development and social upliftment.

- The NLC, through its mandate, has also played a role to bring about growth by ensuring that funds are distributed to qualifying beneficiaries. Sectors funded by the NLC contribute to job creation, rural development, infrastructure development, promoting wellness and social cohesion.
- This aligns to the objectives of the NDP as well as the government's nine-point plan to eliminate poverty and reduce inequality by 2030 while stimulating economic growth.
